Elsevier

Key word index

ACTH, Planorbarius corneus, β-Endorphin, Phagocytosis, Immunoneuroendocrine system, Immunoevolution, 1

Adenine nucleotide, Somatostatin, Receptor binding, Guanine nucleotide, Binding affinity, Rat brain, 181

Age related changes, Gastric carcinoma, Gastrointestinal peptides, Mastomys, 195

Angiotensin II, Deoxyglucose autoradiography, Image analysis, Water deprivation, Dehydration, 37

Antagonist, Corticotropin releasing factor, Corticotropin releasing factor (9-41), α-helical-, Inflammation, Thermal injury, Edema, Hypophysectomy, 317

Anxiety models, Thymopentin, Benzodiazepine receptors, 355

Atrial natriuretic peptide, Immunohistochemistry, Thyroid cell, Monoclonal antibody, 285

Atrium, Endothelin, Receptor, Vasculature, 247

Benzodiazepine receptors, Thymopentin, Anxiety models, 355

Biliary secretion, Regulatory peptide, 139

Binding affinity, Somatostatin, Receptor binding, Adenine nucleotide, Guanine nucleotide, Rat brain, 181

Bombesin, Gastrointestinal motility, Gastroesophageal junction, Substance P, 325

CR1505, Canine gallbladder strip, Nicotine, Transmural electrical stimulation, Yohimbine, Cholinergic nerve, 227

Calcitonin gene-related peptide, Insulin secretion, Dog pancreas, Glucagon secretion, Somatostatin secretion, 149

Calcitonin-like immunoreactivity, Calcitonin gene-related peptide-like immunoreactivity, Tissue distribution, Molecular heterogeneity, Fish, 171

Calcitonin gene-related peptide-like immunoreactivity, Calcitonin-like immunoreactivity, Tissue distribution, Molecular heterogeneity, Fish, 171

Calcium, Insulin release, Cholecystokinin, Carbachol, Inositol phosphate, 237

Canine gallbladder strip, CR1505, Nicotine, Transmural electrical stimulation, Yohimbine, Cholinergic nerve, 227

Carbachol, Insulin release, Cholecystokinin, Inositol phosphate, Calcium, 237

Cholecystokinin, Vasoactive intestinal peptide, Hepatic binding and degradation, 27

Cholecystokinin, Insulin release, Carbachol, Inositol phosphate, Calcium, 237

Cholecystokinin, Growth, Stomach, Pancreas, DNA, RNA, Gastrin, 343

Cholinergic nerve, CR1505, Canine gallbladder strip, Nicotine, Transmural electrical stimulation, Yohimbine, 227

Choroid plexus, Coexistence, Neuropeptide Y, Vasoactive intestinal polypeptide, Peptide histidine isoleucine, Sympathetic denervation, 11

Chromatography, Prohormone, Flanking peptide, Neuropeptide, Radioimmunoassay, Galanin, 307

Chronic depolarization, Somatostatin, Excitation secretion coupling, Veratridine, Potassium, 97

Cimetidine, Pirenzepine, Gastrin monoclonal antibody, Gastric acid secretion, 161

Circadian rhythms, Neuropeptide Y, Suprachiasmatic nucleus, Semiquantitative immunocytochemistry, Rat, 127

Circumvallate papilla, Neuropeptide, Taste bud, 209

Circumventricular organs, Nucleus tractus solitarius, 75

Coexistence, Choroid plexus, Neuropeptide Y, Vasoactive intestinal polypeptide, Peptide histidine isoleucine, Sympathetic denervation, 11

Corticotropin releasing factor, Corticotropin releasing factor (9-41), α-helical-, Antagonist, Inflammation, Thermal injury, Edema, Hypophysectomy, 317

Corticotropin releasing factor (9-41), α-helical-, Corticotropin releasing factor, Antagonist, Inflammation, Thermal injury, Edema, Hypophysectomy, 317
Cyproheptadine, Thyrotropin releasing hormone, Vagus, Development, Small intestine, 263

DNA, Growth, Stomach, Pancreas, RNA, Gastrin, Cholecystokinin, 343
Dehydration, Deoxyglucose autoradiography, Image analysis, Angiotensin II, Water deprivation, 37
Deoxyglucose autoradiography, Image analysis, Angiotensin II, Water deprivation, Dehydration, 37
Development, Thyrotropin releasing hormone, Vagus, Cyproheptadine, Small intestine, 263
Dog pancreas, Calcitonin gene-related peptide, Insulin secretion, Glucagon secretion, Somatostatin secretion, 149

Edema, Corticotropin releasing factor, Corticotropin releasing factor (9-41), α-helical-, Antagonist, Inflammation, Thermal injury, Hypophysectomy, 317
β-Endorphin, Planorbarius corneus, ACTH, Phagocytosis, Immunoneuroendocrine system, Immunoevolution, 1
Endothelin, Receptor, Atrium, Vasculature, 247
Enkephalinamide, Testis, Testosterone, Neonatal rat, 107
Epidermal growth factor, HPLC, Gene, Mammary, Swine, 61
Excitation secretion coupling, Somatostatin, Chronic depolarization, Veratridine, Potassium, 97

Fish, Calcitonin-like immunoreactivity, Calcitonin gene-related peptide-like immunoreactivity, Tissue distribution, Molecular heterogeneity, 171
Flanking peptide, Prohormone, Neuropeptide, Radioimmunoassay, Chromatography, Galanin, 307

GMP, cyclic, Thysplenin, Receptor, T cell line, 257
Galanin, Prohormone, Flanking peptide, Neuropeptide, Radioimmunoassay, Chromatography, 307
Gastric acid secretion, Pirenzepine, Gastrin monoclonal antibody, Cimetidine, 161
Gastric carcinoma, Age related changes, Gastrointestinal peptides, Mastomys, 195
Gastrin monoclonal antibody, Pirenzepine, Cimetidine, Gastric acid secretion, 161
Gastrin, Growth, Stomach, Pancreas, DNA, RNA, Cholecystokinin, 343
Gastroesophageal junction, Gastrointestinal motility, Substance P, Bombesin, 325
Gastrointestinal peptides, Gastric carcinoma, Age related changes, Mastomys, 195
Gastrointestinal motility, Gastroesophageal junction, Substance P, Bombesin, 325
Gene, Epidermal growth factor, HPLC, Mammary, Swine, 61
Glucagon secretion, Calcitonin gene-related peptide, Insulin secretion, Dog pancreas, Somatostatin secretion, 149
Growth, Stomach, Pancreas, DNA, RNA, Gastrin, Cholecystokinin, 343
Guanine nucleotide, Somatostatin, Receptor binding, Adenine nucleotide, Binding affinity, Rat brain, 181

HPLC, Epidermal growth factor, Gene, Mammary, Swine, 61
Hepatic binding and degradation, Cholecystokinin, Vasoactive intestinal peptide, 27
Hypophysectomy, Corticotropin releasing factor, Corticotropin releasing factor (9-41), α-helical-, Antagonist, Inflammation, Thermal injury, Edema, 317

Ileum, Intestinal secretion, Intestine, small, 299
Image analysis, Deoxyglucose autoradiography, Angiotensin II, Water deprivation, Dehydration, 37
Immunoevolution, Planorbarius corneus, ACTH, β-Endorphin, Phagocytosis, Immunoneuroendocrine system, 1
Immunoglobulins, Thyrotropin releasing hormone, Peripheral blood mononuclear cells, Lymphocyte proliferation, Interferon γ, 335
Immunohistochemistry, Atrial natriuretic peptide, Thyroid cell, Monoclonal antibody, 285
Immunoneuroendocrine system, Planorbarius corneus, ACTH, β-Endorphin, Phagocytosis, Immunoevolution, 1
Inflammation, Corticotropin releasing factor, Corticotropin releasing factor (9-41), α-helical-, Antagonist, Thermal injury, Edema, Hypophysectomy, 317
Inositol phosphate, Insulin release, Cholecystokinin, Carbachol, Calcium, 237
Insulin release, Cholecystokinin, Carbachol, Inositol phosphate, Calcium, 237
Insulin secretion, Calcitonin gene-related peptide,

Dog pancreas, Glucagon secretion, Somatostatin secretion, 149
Interferon γ, Thyrotropin releasing hormone, Peripheral blood mononuclear cells, Immunoglobulins, Lymphocyte proliferation, 335
Intestinal secretion, Ileum, Intestine, small, 299
Intestine, small, Ileum, Intestinal secretion, 299
Islet cells, Radioautography, Labeling index, Mitotic index, Oral administration, 87

Labeling index, Islet cells, Radioautography, Mitotic index, Oral administration, 87
Luteinizing hormone releasing hormone, Ovine placenta, 51
Lymphocyte proliferation, Vasoactive intestinal peptide, Rabbit, 117
Lymphocyte proliferation, Thyrotropin releasing hormone, Peripheral blood mononuclear cells, Immunoglobulins, Interferon γ, 335
Lysosomal degradation, Soluble fraction, Particulate fraction, 273

Mammary, Epidermal growth factor, HPLC, Gene, Swine, 61
Mastomys, Gastric carcinoma, Age related changes, Gastrointestinal peptides, 195
Mitotic index, Islet cells, Radioautography, Labeling index, Oral administration, 87
Molecular heterogeneity, Calcitonin-like immunoreactivity, Calcitonin gene-related peptide-like immunoreactivity, Tissue distribution, Fish, 171
Monoclonal antibody, Atrial natriuretic peptide, Immunohistochemistry, Thyroid cell, 285

Neonatal rat, Enkephalinamide, Testis, Testosterone, 107
Neuropeptide Y, Choroid plexus, Coexistence, Vasoactive intestinal polypeptide, Peptide histidine isoleucine, Sympathetic denervation, 11
Neuropeptide Y, Suprachiasmatic nucleus, Semiquantitative immunocytochemistry, Circadian rhythms, Rat, 127
Neuropeptide, Circumvallate papilla, Taste bud, 209
Neuropeptide, Prohormone, Flanking peptide, Radioimmunoassay, Chromatography, Galanin, 307
Nicotine, CR1505, Canine gallbladder strip, Transmural electrical stimulation, Yohimbine, Cholinergic nerve, 227
Nucleus tractus solitarius, Circumventricular organs, 75

Oral administration, Islet cells, Radioautography, Labeling index, Mitotic index, 87
Ovine placenta, Luteinizing hormone releasing hormone, 51

Pancreas, Growth, Stomach, DNA, RNA, Gastrin, Cholecystokinin, 343
Particulate fraction, Soluble fraction, Lysosomal degradation, 273
Peptide histidine isoleucine, Choroid plexus, Coexistence, Neuropeptide Y, Vasoactive intestinal polypeptide, Sympathetic denervation, 11
Peripheral blood mononuclear cells, Thyrotropin releasing hormone, Immunoglobulins, Lymphocyte proliferation, Interferon γ, 335
Phagocytosis, Planorbarius corneus, ACTH, β-Endorphin, Immunoneuroendocrine system, Immunoevolution, 1
Pirenzepine, Gastrin monoclonal antibody, Cimetidine, Gastric acid secretion, 161
Planorbarius corneus, ACTH, β-Endorphin, Phagocytosis, Immunoneuroendocrine system, Immunoevolution, 1
Potassium, Somatostatin, Chronic depolarization, Excitation secretion, coupling, Veratridine, 97
Prohormone, Flanking peptide, Neuropeptide, Radioimmunoassay, Chromatography, Galanin, 307

RNA, Growth, Stomach, Pancreas, DNA, Gastrin, Cholecystokinin, 343
Rabbit, Vasoactive intestinal peptide, Lymphocyte proliferation, 117
Radioautography, Islet cells, Labeling index, Mitotic index, Oral administration, 87
Radioimmunoassay, Prohormone, Flanking peptide, Neuropeptide, Chromatography, Galanin, 307
Rat brain, Somatostatin, Receptor binding, Adenine nucleotide, Guanine nucleotide, Binding affinity, 181
Rat, Neuropeptide Y, Suprachiasmatic nucleus, Semiquantitative immunocytochemistry, Circadian rhythms, 127
Receptor, Endothelin, Atrium, Vasculature, 247
Receptor, Thysplenin, T cell line, GMP, cyclic, 257
Receptor binding, Somatostatin, Adenine nucleotide, Guanine nucleotide, Binding affinity, Rat brain, 181
